

MUDGEE

3 1 1

Situated east of the CBD in an established neighbourhood is Keston, an outstanding Mudgee residence.

The subject of a meticulous refurbishment and renovation sympathetic to the character of the original building, this French provincial inspired home affords elegance and luxury in every attribute.

Bathed in an abundance of natural light the four living zones are generous in size and boast polished timber flooring, high ceilings and exquisite period light fittings. These zones include a lounge with open fire, meals area, alfresco dining/entertaining which can be enclosed with custom blinds and an additional family room with striking raked ceilings and exposed beams.

In keeping with the overall style of the home the custom made kitchen includes a multitude of storage space, quality appliances and clever servery access to the alfresco area.

An inviting master suite with ornate open fire and built in robes is complimented by two further spacious bedrooms each with custom cabinetry and robes.

Price : \$ 485,000
