This property emphasises style and class in every facet, delivering the features expected by today's modern family.

The house provides three separate living areas - a formal lounge at the front, a casual living/television room opening onto the deck area, and a combined open plan kitchen dining room complete with a slow combustion heater.

Timber flooring throughout the living areas give the home a sense of warmth. Reverse cycle air conditioning and the toasty wood fire heater assure year round climate control.

Quality and style is evident in the kitchen highlighted by Caesar stone bench tops, stainless steel oversized oven with gas cooktop, range hood and dishwasher. No expense has been spared with a walk in pantry, custom made cabinetry and a large island bench.

The master bedroom has a large walk in robe, en suite bathroom and private balcony overlooking the in ground pool. The three remaining bedrooms are generously proportioned with built in wardrobes and ceiling fans.
